  <h3><b>OVERVIEW..</h3>
```

```
<h7><i>Our hostel is a place full of students. It is like a family of students where the head of the family is a student and the members are the students. In a hostel, students learn a lot of things and values. They learn about friendship and also about fellow feelings. They also learn about the importance of discipline. A hostel is a place that develops a sense of responsibility in every student. Here is an article on importance of hostel life.</h7><br>

  <p4><i>Some text..</i></p4>

  <p><h10>To have a successful hostel business in the modern age, it is essential to have a strong online presence. Guests expect to be able to find information describing a hotel online, and they will often make their decision about where to stay based on what they find.<br><br>

There are a number of ways to establish an online presence, but one of the most important ones is to have a well-designed website. A hostel's website should be easy to use and informative, giving potential guests a good idea of what the hotel has to offer.<h10> </p>
